MICRO PROJECT

TITLE OF THE PROJECT

ONLINE GROCERY ORDERING SYSTEM

Program: CO

Program code: CO6K

Course: CSS

Course code: 316005

Class: TYCO1

Group No:

Project Guide: Ms.S.S.KOTALWAR

MAHARASHTRA STATE BOARD OF TECHNICAL EDUCATION

Certificate

This is to certify that Sarah Shaikh, Siddhi Darekar , Pradnya Kaurav , Subiya Sayyed, of VI Semester of Diploma in Computer Engineering of Institute Jayawantrao Sawant Polytechnic (Code: 0711) has completed the MicroProject satisfactorily in Subject – C++(316005) for the academic year 2025-2026 as prescribed in the curriculum.

Place: Hadapsar, Pune

Enrollment No:

2207110109
23211830367
23211830381
23211830431

Date: 12/03/2026

Exam Seat No :

Subject Teacher

Head of the Department

Principal

Academic Year 2025-26

Title of Micro project:

1.0 Brief Introduction :

The Online Grocery Ordering System is a web-based platform that allows customers to browse and order grocery items through the internet. Users can view different categories of products such as fruits, vegetables, dairy products, and daily essentials. The system provides a simple and user-friendly interface where customers can select items, add them to their cart, and place orders easily. This system helps save time, reduces the need to visit physical stores, and makes grocery shopping more convenient for customers.

2.0 Aim of Micro Project:

- To design a simple and user-friendly grocery ordering website.
- To display different grocery products in an organized way.
- To make online grocery shopping easy and convenient for users.
- To practice web designing using **HTML and CSS**.
- To create an attractive interface with product images, prices, and buttons.
- To help users quickly select and view grocery items online.

3.0 Action Plan (Sequence and time required for major activities for 8 week)

Sr. No	Details of activity	Planned start date	Planned Finish date	Name of Responsible Team members
1	Collect information about shopping webpage	02-02-2026	04-02-2026	1.Sarah Shaikh 2.Pradnya Kaurav 3.Siddhi Darekar 4.Subiya Sayyed
2	Design webpage layout using HTML	05-02-2026	08-02-2026	
3	Apply CSS styling to the webpage	09-02-2026	12-02-2026	
4	Testing and final submission	12-03-2026	12-03-2026	

4.0 Resources required (major resources such as raw material, some machining facility, software etc.)

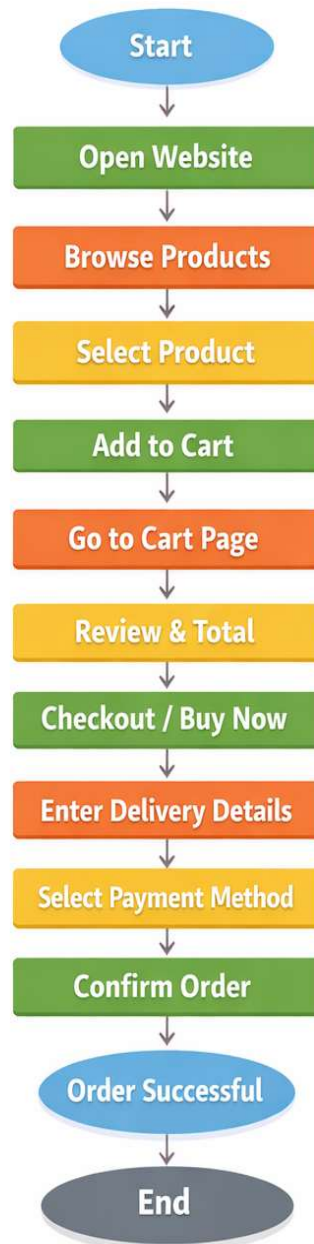

Sr. NO	Name of resource / material	Specification	Quantity	Remarks
1	Computer/Laptop	Windows OS	1	For coding
2	Code Editor	VS Code / Notepad++	1	For program development
3	Internet	For research	-	Reference
4	Browser	Chrome / Edge	1	Reference

Algorithm :

1. **Start**
2. Open the Online Grocery Ordering website.
3. Display the **Home Page** with grocery categories and products.
4. User browses or searches for required grocery items.
5. Select a product to view its details (name, price, image).
6. Click on **Add to Cart** to add the product to the cart.
7. Repeat steps 4–6 if the user wants to add more items.
8. Open the **Cart Page** to view selected products.
9. Check product quantity and total price.
10. Click on **Checkout / Buy Now**.
11. Enter delivery details (name, address, contact number).
12. Select payment method (Cash on Delivery / Online Payment).
13. Confirm the order.
14. Display **Order Successful** message.
15. **End**.

Flowchart :

Title of Microproject: **ONLINE GROCERY ORDERING SYSTEM**

1.0 Brief Description:

The Online Grocery Ordering System is a web-based platform that allows customers to browse and order grocery items through the internet. Users can view different categories of products such as fruits, vegetables, dairy products, and daily essentials. The system provides a simple and user-friendly interface where customers can select items, add them to their cart, and place orders easily. This system helps save time, reduces the need to visit physical stores, and makes grocery shopping more convenient for customers.

2.0 Aim of Micro Project:

- To design a simple and user-friendly grocery ordering website.
- To display different grocery products in an organized way.
- To make online grocery shopping easy and convenient for users.
- To practice web designing using **HTML and CSS**.
- To create an attractive interface with product images, prices, and buttons.
- To help users quickly select and view grocery items online.

Course Outcome Integrated:

- i. We learned how to create simple Grocery Ordering System in CSS.
- ii. We understood Web design using HTML.

3.0 Actual Procedure Followed:

1. Created the basic structure of the webpage using HTML to design the contact form and layout.
2. Applied CSS styling to improve the appearance of the webpage, including colors, buttons, fonts, and layout design.
3. Tested the webpage in a web browser to ensure that the contact form and interface display correctly and finalized the project for submission.

4.0 Actual Resources Used :

Sr. NO	Name of resource / material	Specification	Quantity	Remarks
1	Computer/Laptop	Windows OS	1	For coding
2	Code Editor	VS Code / Notepad++	1	For program development
3	Internet	For research	-	Reference
4	Browser	Chrome / Edge	1	Reference

6.0 Outputs of the Micro Projects:

The webpage displays:
Online Grocery Ordering Web

7.0 Skills Developed:

- Web design using HTML
- Styling using CSS
- Understanding client-side scripting
- Interface design
- Project planning and teamwork

Teacher Evaluation Sheet

Name of student: Sarah Shaikh

Enrollment No: 2207110109

Name of programme : Computer Engineering

Semester: VI

Course Title: CSS

Code: 316005

Title of Micro Project: Online Grocery Ordering System

Course Outcomes Achieved:

Evaluation as per suggested Rubric for Assessment of Micro Project

Sr. No	Characteristic to be assessed	Poor (Marks 1-3)	Average (Marks 4 - 5)	Good (Marks 6 - 8)	Excellent (Marks 9 - 10)
1	Relevance to the course				
2	Literature Survey / Information collection				
3	Project Proposal				
4	Completion of the Target as per Project Proposal				
5	Analysis of data and representation				
6	Quality of Prototype/ Model				
7	Report preparation				
8	Presentation				
9	Defense				

Micro Project Evaluation Sheet

Process Assessment		Product Assessment		Total Marks 10
Part A - Project Proposal (2 Marks)	Project Methodology (2 Marks)	Par B - Project Report/ working Model (2 Marks)	Individual Presentation/ Viva (4 Marks)	

Note: Every course teacher is expected to assign marks for group evaluation in first 3 columns and individual evaluation 4th column

Comment/ suggestion about team work/leadership/ interpersonal communication (If any)
